MANUFACTURER TECHNICAL TRAINING

The Manufacturer Service School is a certification program offered for technicians.

- Technicians can obtain certifications from any of the manufacturers presenting - as long as you are an authorized dealer with the manufacturer.
- Each individual technician may attend only ONE manufacturer training on TUE-WED (BraunAbility or VMI/Sure Grip) and ONE on THUR (Adapt-Solutions, Drive-Master, MPD, MPS), so if you need certificates from multiple manufacturers, you will need to send more than one technician.
- Technicians MUST attend the manufacturer's entire training session, and *may not* attend other seminars.
- **YOUR REGISTRATION IS CONTINGENT UPON MANUFACTURER APPROVAL.** Your payment will not be processed and attendance *is not* confirmed until it is approved by each manufacturer.
- **Please allow 7-10 business days for confirmation.**

BRAUNABILITY *This training will allow technicians to efficiently maintain, diagnose, and repair BraunAbility products, resulting in less down time for the end user. MSE Vehicle and Lift Certificates (good for 2 years) will be provided at the conclusion of the training.*

Contact: Fred Mannix - fred.mannix@braunability.com

VMI & Sure Grip *VMI will train technicians on the VMIQ control module, Chrysler Pacifica. Participants will earn a 2-year certification in VMI/NMEDA Tech Training and fulfills the prerequisite to advance to the iMSE factory sponsored training at VMI. (Incl. Sure Grip training!)*
