

## National Mobility Equipment Dealers Association

**NMEDA** is a non-profit trade association of mobility equipment dealers, manufacturers, driver rehabilitation specialists and other professionals dedicated to expanding opportunities for people with disabilities to drive or be transported in vehicles modified with mobility equipment. All members work together to improve transportation options of people with disabilities.

The **National Mobility Equipment Dealers Association** was established in 1989. The organization promotes and supports individual members engaged in the modification of quality transportation for people with disabilities. Membership has grown to more than 500 members with the bulk of the membership located in the United States and Canada. All members are required to adhere to the safety standards of the National Highway Traffic Safety Administration and to follow the guidelines set by **NMEDA**. Every member agrees to follow these guidelines when they join the association. The guidelines, which are actually a living document providing detailed recommended practices on equipment installation and modifications, are updated yearly.
